### Course Description

Cancer is the #1 killer of firefighters. This class talks about the most common Cancers we face and immediate actions Firefighters can take to reduce their risk of occupational Cancer. The class covers statistics from local, national and international studies; the exposure we have as firefighters; steps firefighters and officers can take, immediately, to reduce the risk; why exposure reports are so important and the benefits the Firefighter Cancer Support Network provides for firefighters and their families.

### Course Objectives

This program is designed for anyone who desires to increase their knowledge of taking action against cancer in the Fire Service.

- Cancer is the top cause of Firefighter line-of-duty deaths
- The most common cancers Firefighters face
- Immediate actions you can take to reduce your occupational cancer risk
- Cancer- prevention roles for the Company Officer, Battalion Chief, and Fire Chief
- How governing jurisdictions can reduce Firefighter cancer risk
- Why personal exposure records are vital
- How the nonprofit Firefighter Cancer Support Network helps Firefighters cope with cancer
